

REMARKS

Original claims 1-18 and amended claims 1-18 in corresponding International (PCT) Application No. PCT/AU2004/000539 have been cancelled and rewritten as claims 19-38 to eliminate the multiple dependencies and to conform the claims to standard United States patent practice. This Supplemental Preliminary Amendment further amends claims 19, 21-23, 28-32, 34 and 38 in conformance with a subsequent Article 19 amendment made in the PCT application.

Examination and allowance of pending amended claims 19-38 are respectfully requested.

Respectfully submitted,
